

Source of financing	Grant funding of young scientists under the "Zhas Galym" project for 2022-2024 (Ministry of Science and Higher Education of the Republic of Kazakhstan)
Priority areas	research in the field of social sciences and humanities
Specialized scientific areas	Fundamental, applied, interdisciplinary research in the field of humanities.
Project's IRN:	AP14972995
Project Name:	History of the sub-ethnic group of Estek among Kazakhs
Project Manager	Albina Maksutova, Master of History
Implementation dates	2022-2024
Relevance	The sub-ethnic group of Estek among Kazakhs is almost unexplored. Esteks among Kazakhs are the descendants of Bashchkirs who fled to the Kazakhs in the 17th-19th centuries. There are a large number of different groups of Esteks. The project will aim to study these different groups
Goal	On the basis of previously introduced, as well as for the first time introduced into scientific circulation sources of historical memory (shezhire-genealogies of family microhistory, dastans and epics), the study of genetic markers of representatives of the genus Etek, to carry out a critical analysis of European concepts of ethnos (primordialism, constructivism), to reconstruct the process and factors of assimilation of other-ethnic Turkic groups in the Kazakh environment.
Expected result	-for 2022: manuscript of one scientific article; -for 2023: manuscripts of two scientific articles; two published articles, in peer-reviewed foreign and (or) domestic publications recommended by the KOKSON; obtaining a PhD diploma; -for 2024: manuscripts of two scientific articles; three published articles, in peer-reviewed foreign and (or) domestic publications recommended by the KOKSON; publishing a monograph.
Target groups	Academic environment. History, History of Kazakhstan
